

Covid -19
Visiting Policy
June 2022

- Visits are possible in all circumstances providing the visitor can provide a negative Lateral Flow Test on arrival. The test can be taken on site if you have no tests at home.
- All visits must be booked in advance to enable us to manage them safely and ensure the appropriate cleaning and hygiene regimes are in place.
- Upon arrival you will be asked to wear a facemask for the duration of your visit.
- Visitors will not be able to use toilet facilities (unless for emergencies) and refreshments cannot be given at this time.
- If you have any Covid symptoms we would ask that you don't visit the home. We apologise for any inconvenience this may cause but it is our duty of care to protect our residents and staff as far as possible.
